Are inefficient processes keeping your organization from living out its mission?

We can create a variety of digital solutions that simplify your outdated processes and effectively increase productivity.

radianHub

CASE STUDY: BRIDGES

radianHub partnered with BRIDGES to redesign their student application and streamline their communication processes. BRIDGES unities and inspires diverse, young people to become confident and courageous leaders committed to community transformation.

THE PROBLEM

BRIDGES was desperate to find a trusted partner to help them with their requests after struggling with other Salesforce developers in the past and not having a plan in place for an upcoming staff transition.

THE SOLUTION

radianHub rebuilt BRIDGES' application, created easier event sign-ups, streamlined parent communication, designed global action buttons, and simplified waiver form fills, meeting invites and cancellations, and more.

THE RESULTS

BRIDGES has been able to accept more applications and get even more students to apply thanks to a simple, mobile-friendly application process.

Staff members can easily communicate with parents at a moment's notice.

Staff members are able to control and change different aspects of the BRIDGES site without needing extra technical support.

Students have mentioned how much they enjoy the easy-to-use applications and online systems.
